Aviation in World War II - Wikipedia

What are the biggest challenges for the aviation industry in the next 20 years? If we look at aviation in a broad sense, the industry is facing a whole complexity of new challenges. Airports are going through an era of hyper-competition which means an increasing number of airports are competing for a diminishing number of resources.

The future of digital technology in the aviation industry

History of Aviation. On December 17, 1903, Orville and Wilbur Wright capped four years of research and design efforts with a 120-foot, 12-second flight at Kitty Hawk, North Carolina - the first powered flight in a heavier-than-air machine. Prior to that, people had flown only in balloons and gliders.
