There are two engine codes in the VW Golf 5 GTI 2.0 TFSI outside the United States. EA113 series AXX and BWA. AXX series engines were the first to be produced and include special piston geometry for direct injection. When the BWA engine replaced AXX many upgrades were done to it, one of which was simplified pistons geometry and better ...

I guess almost everyone knows there are 2 engines for the Golf V Gti with AXX being the "first" generation and BWA the newer one. There seem to be differences between the 2 engines, with the more "obvious" one being the change in static compression from 10.5 to 10.3 This may seem minor, but for a turbo engine, its quite a bit. The word going around is that VW took that step due to the ...
