PADDLE SHIFTERS & A MANUAL TRANSMISSION - YouTube

Paddle shift doesn't require much of a sacrifice in your ability to control the car like previous automatics did. In fact, shift times are much faster in a paddle shift car than you could ever do with a manual. Modern paddle shift cars are very responsive, so the lack of a clutch pedal doesn't really take away from the experience.

Why Is Paddle Shift Killing the Manual Transmission, and ...

Hi Everyone, This is my first post here. I wanted to hear your oppinions about the new paddle shifters that are begginig to replace the manual transmittions we all know. I personally have nothing against them, as long as the manufacturers give me a choice between the two. I know the new semi autos are supposed to shift faster than any person can, but I miss the cluch...I find it more fun.
