The Inner Reaches of Outer Space: Metaphor as Myth and as ...

BL311 .C263 2002. The Inner Reaches of Outer Space is a 1986 book by mythologist Joseph Campbell, the last book completed before his death in 1987. In it, he explores the intersections of art, psychology and religion, and discusses the ways in which new myths are born. In writing the book, Campbell drew on transcripts of a series of lectures and conversations that he gave in San Francisco between 1981–1984, including legendary symposiums with astronaut Rusty Schweickart and with members of ...

Inner Reaches of Outer Space, The - JCF: Works

Dr Campbell's "The Inner reaches of Outer Space" is a book which draws the main lines of his thought. In the first chapter, he speaks about mythic motifs. As he sees them, they relate to a life beyond death, where there are malevolent and protective spirits. These spirits, or as Adolf Bastian calls them, elementary,....
