

# iSC – Industrial Science and Management Program at Thammasat University

A new, exciting, and rapidly expanding program – The Industrial Science and Management (iSC) program at Thammasat University brings forward a high-standard, international, and competitive environment, fostering innovation, development, and moral commitment to society.

iSC students have the opportunity to attain a Bachelor of Science in Industrial Science and Management with one of three majors: **Biotechnology, Food Science and Technology, or Applied Chemistry.** Each of which provides the student with an education tailored to produce confidence and distinction to continue in careers interlinking science and technology, with industry and management.

iSC encourages a diverse faculty with international ties as well as strong background in teaching – all lectures are solely conducted in English. All lecturers

International Program  
Faculty of Science and Technology,  
Thammasat University Rangsit Center,  
Phahonyothin Rd.,  
Klong Luang, Pathumthani, 12120  
Tel.: +669 9051 5130

have selectively been chosen in order to provide the best educational experience possible for the students at iSC.

Graduating from the iSC program expands the horizon of the pathway that the students may choose in their journey to success. Our program brings out the best of the students – providing them with a true challenge and a foundation for excellence.

### What makes us different?

We are the first international program in Thailand that incorporates both science and management in one educational package. Our curriculum includes the opportunity to gain hands-on experience in industries both by internships and many site visits. The students get a well-rounded education, which will serve as a gateway to further education and/or industrial experiences. Visit our website for more information.
